

PERSONNEL COMMITTEE REPORT

March 2010

Health Promotion

With support from United Healthcare, the City will soon be introducing a wellness program called Simply Engaged. Many serious health conditions develop over time, but they can be delayed or prevented if you know your risks and make healthy changes.

To kick off this program, "*Know Your Numbers*" event screenings have been scheduled during the month of May. These confidential screening events will measure blood pressure, cholesterol, glucose, and BMI levels. This event will provide employees with the necessary information to complete an on-line Health Risk Assessment, earning incentives for employees and their covered spouses.

The first meeting of the newly-formed West Lafayette Health Promotion Committee will be scheduled during the month of April.

New Hire

Raymond Ross ("J.R.") is a welcome new addition to the Street and Sanitation Department, starting work on March 23 as a Driver/Collector/Processor.

Recruiting Activities

With the unfortunate departure of Wendy Field, recruiting efforts are underway for the Office Manager position in the Engineering Department. We have had the good fortune of having a highly-qualified group of applicants to consider for this position and hope to have it filled by mid-April.

Also by mid-April, we hope to fill a vacancy at the Wastewater Treatment Utility for a part-time lab technician.

In total, nearly 300 resumes/applications have been received for these two positions.

Submitted by Diane Foster, Human Resources Director
